

Q1. Find the sum of numbers from 1 to N

```
import java.util.Scanner;

public class Q_01 {

    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        System.out.print("Enter N: ");

        int n = sc.nextInt();

        int sum = 0;

        for (int i = 1; i <= n; i++) {

            sum = sum + i;

        }

        System.out.println("The sum is: " + sum);

        sc.close();

    }

}
```

OUTPUT_1:

The screenshot shows a terminal window with the following content:

```
PS C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5> cd "c:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5" ; if ($?) { javac Q_01.java } ; if ($?) { java Q_01 }
Enter N: 8
The sum is: 36
PS C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5>
```

The terminal window has a dark background with a light-colored text. The title bar at the top shows 'Problems', 'Output', 'Debug Console', 'Ports', and 'Terminal'. The status bar at the bottom shows 'Ln 1, Col 6', 'Spaces: 4', 'UTF-8', 'CRLF', '[]', 'Java', 'Go Live', 'Funny Sounds', and a cursor icon.

Q2. Print multiples of 5 from 1 to 100

```
public class Q_02 {  
  
    public static void main(String[] args) {  
  
        for (int i = 1; i <= 100; i++) {  
  
            if (i % 5 == 0) {  
  
                System.out.println(i);  
  
            }  
  
        }  
  
    }  
  
}
```

OUTPUT_2:

```

Q3. Count how many numbers are divisible by 3 between 1 and N

```
import java.util.Scanner;

public class Q_03 {

    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        System.out.print("Enter N: ");

        int n = sc.nextInt();

        int count = 0;

        for (int i = 1; i <= n; i++) {

            if (i % 3 == 0) {

                count++;

            }

        }

        System.out.println("Count of numbers divisible by 3: " + count);

        sc.close();

    }

}
```

OUTPUT_3:

```
PS C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5> cd "C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5\" ; if ($?) { javac Q_03.java } ; if ($?) { java Q_03 }
Enter N: 6
Count of numbers divisible by 3: 2
PS C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5>
```

Q4. Check whether a number is prime or Not

```
import java.util.Scanner;

public class Q_04 {

    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        System.out.print("Enter a number: ");

        int n = sc.nextInt();

        boolean isPrime = true;

        if (n <= 1) {

            isPrime = false;

        } else {

            for (int i = 2; i < n; i++) {

                if (n % i == 0) {

                    isPrime = false;

                    break;

                }

            }

        }

        if (isPrime) {

            System.out.println(n + " is a Prime number");

        } else {

            System.out.println(n + " is not a Prime number");

        }

        sc.close();

    }

}
```

OUTPUT_4:

The screenshot shows a VS Code terminal window with the following content:

```
PS C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5> cd "C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5\" ; if ($?) { javac Q_04.java } ; if ($?) { java Q_04 }
Enter a number: 5
5 is a Prime number
PS C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5> |
```

The terminal window has a dark theme and includes standard VS Code interface elements like the top bar with 'Problems', 'Output', 'Debug Console', 'Ports', and 'Terminal' tabs, and a bottom status bar showing 'Ln 1, Col 1', 'Spaces: 4', 'UTF-8', 'CRLF', and 'Java'.

Q5. Reverse of a Given number

```
import java.util.Scanner;

public class Q_05 {

    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        System.out.print("Enter a number: ");

        int num = sc.nextInt();

        int reverse = 0;

        while (num != 0) {

            int digit = num % 10;

            reverse = reverse * 10 + digit;

            num = num / 10;

        }

        System.out.println("Reversed number: " + reverse);

        sc.close();

    }

}
```

OUTPUT_5:

The screenshot shows a Windows Command Prompt window with the following text:

```
PS C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5> cd "c:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5" ; if ($?) { javac Q_05.java } ; if ($?) { java Q_05 }
Enter a number: 123456
Reversed number: 654321
PS C:\Users\nrape\OneDrive\Desktop\JAVA\Assignment_5> |
```

The terminal window has a dark background with a light-colored text. The title bar at the top says "Terminal". The status bar at the bottom shows "Ln 1, Col 1", "Spaces: 4", "UTF-8", "CRLF", "Java", and "Go Live". There are also icons for "Funny Sounds" and a speaker icon.
